Heritage

H e r i t a g e

The Heritage Series is a stylish interpretation of an 18th Century Chippendale design, crafted using current technologies and time-honored techniques.

Interpreted by Alan Jay Paull

Timeless design is only part of the Heritage story. Responding to the functional demands of today's workplace, Heritage is comprised of an extensive array of casegoods, including desks, table desks, returns, corner units, credenzas, overhead storage units, lateral files, and bookcases. In addition, a variety of components provide endless rear workwall configuration possibilities.

Double Pedestal Desk with Overhang Bow Top

Impeccable detailing reveals the handcraftsmanship of the Heritage Series.

Desks and credenzas are available with Overhang Tops or Flush Tops. Flush Top Desks include a pull-out dictation slide on the approach side of the desk.

Double Pedestal Desk with Overhang Top

Reverse Diamond Patterned Veneer Desktop

Walnut Burl Veneer Desktop

Leather Inset Desktop with Gold Embossing

Casegoods are manufactured using the highest quality American Black Walnut solids and veneers, enhanced by a durable, catalyzed lacquer finish. A selection of five rich walnut finishes exude warmth and sophistication.

Faithful to the design character and quality of Heritage, tops are framed in solid Walnut and shaped to a distinctive edge detail. Overhang desk tops are built up to 2", flush tops are 1".

Solid Walnut moldings are also used around all drawer fronts, as well as the belt-line and box base. Optional Picture Frame Accent Moldings further enrich the intricate design. Desktop options include Reverse Diamond Patterned Veneer, Walnut Burl Veneer, and Leather Inset with Gold Embossing.

Double Pedestal Desk with Flush Top

Double Pedestal Desk with Flush Top

This side workwall with run-off desk configuration affords maximum worksurface, storage, filing capacity, and paper management within a minimal footprint. Run-Off Desks are available in P-Top and Arc End shapes or a single pedestal desk unit.

Articulating keyboard trays, pull-out printer shelves, and wire management are among several ways Heritage addresses today's electronic office requirements.

Heritage Series Conference Tables are offered in five different top shapes, four veneer patterns, and five base styles. Top sizes range up to 20' with custom sizes also available. The Recessed Power/Data Center allows electronic accessibility. Additional conference room elements include Media Storage, Visual Boards, Lecterns, and buffet serving units.

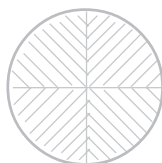

You don't get a second chance to make a first impression. As clients enter your office, Heritage Reception Furniture communicates your corporate image of sophistication and stability. Reception Workstations are available in L-shaped and U-shaped configurations with

several drawer, storage, and paper management options. Workstations are surrounded by 42" high panels with rectangular or bow front transaction tops that provide privacy and an uncluttered appearance. Lounge seating completes the reception environment.

Heritage Meeting Tables are available with a Duncan Phyfe Base (as shown), Queen Anne, or Cube Base.

Chippendale and Queen Anne styled occasional tables are offered in several sizes with book-matched or patterned veneer tops. Optional lower shelves provide additional storage on the Chippendale occasional tables.

Heritage Details

It's all about the details. From the finely shaped edges to the distinct moldings, each piece of Heritage furniture is "bench assembled." Meaning, one of our highly-skilled craftsmen will personally assemble your desk.

It is this commitment to quality and customer service that allow Taylor Desk to back the Heritage Series with a 10 YEAR LIMITED WARRANTY.
